New Branch Manager –11/2007

Arbil are pleased to announce the appointment of Paul Smith as the new Branch Manager for their Coventry branch.

Paul has previously worked in the crane hire industry and brings with him extensive commercial experience and knowledge of the hire market. This new appointment further strengthens the branch team and will provide a focus and drive for the company's hire business.

New Low Rate Hire Division Telephone Number – 07/2007

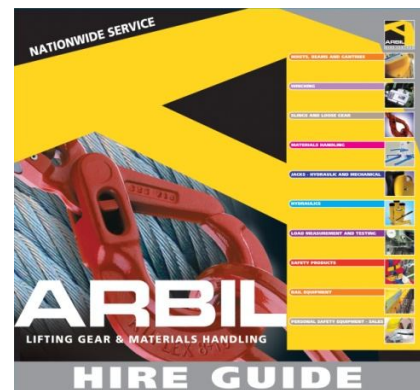

To coincide with the launch of the new Arbil Hire Guide we have launched a low rate telephone number exclusively for the Hire Division

0845 600 4049

This is the new number to call for all your hire requirements. The introduction of this number shows our commitment to offering the best possible levels of service to our Hire customers

Extended Range Hire Guide – 07/2007

As one of the UK's leading lifting, jacking and winching specialists, we are pleased to announce the release of our extended range Hire Guide.

The guide includes technical information on hydraulic system set ups, maintenance tools and winching theory, and is an essential tool for any organisation involved in lifting operations and a must for every manufacturing, engineering or construction site.

The new guide introduces an even greater number of products and reflects the company's continued development and customer focus.

Incorporating new lifting and winching equipment, the guide focuses on our specialist capabilities built up over the last 40 years. These include highly sophisticated hydraulic jacking systems and load measuring equipment. The guide also presents a comprehensive selection of Height Safety and Materials Handling products.

The increased product offering combined with a wide choice of Personal Protective Equipment outline our continued commitment to industry safety and have been selected to aid our customers in meeting the latest industry guidelines and regulations.
